

SÁNDOR DARÓCZI

ABOUT ME

I'm a software engineer specializing in AI/ML with a master's degree in mathematics from TU Munich. I love hard technical and business challenges that need deep thinking and hands-on building. Quick learner who enjoys explaining complex stuff and working with teams to solve problems. Looking to join a team where I can learn and contribute to a mission that truly matters.

EDUCATION

Technical University of Munich **Oct 2021 - Mar 2025**
MSc Mathematics (Grade: 1.2, passed with high distinction) Munich, Germany

- **Coursework:** Machine Learning, Deep Learning, Statistics, Optimization
- **Industry Research:** ML Uncertainty Estimation (Lidl), Train Route Optimization (Siemens), LLM Compression (Pruna AI)
- **Awards:** DAAD scholarship (top 10 students from Hungary)
- **Exchange Semester:** National Taiwan University (top CS school in Taiwan)

Eötvös Loránd University **Sep 2018 - Jun 2021**
BSc Mathematics (Grade: 1.0, with honours) Budapest, Hungary

WORK EXPERIENCE

Software Engineer - AI/ML **Apr 2025 - ongoing**
ASTRUM IT Nuremberg, Germany

- Building software for a production agentic AI application across the full stack, using Python, FastAPI, LangGraph, React, Docker, and CI/CD
- Leading internal workshops on GitHub Copilot and AI-assisted coding, researching latest developments to improve developer productivity
- Also serving as the Scrum Master for the team

Master Thesis Student **Sep 2024 - Mar 2025**
Pruna AI (Grade: 1.0, paper under review) Munich, Germany

- Researched the reliability of open source Large Language Models under compression (quantization, pruning) and real-world data drift
- Built a PyTorch framework and ran 30,000+ experiments on GPUs (SLURM)

Working Student in ML & Mathematics **Feb 2024 - Mar 2025**
Rohde & Schwarz Munich, Germany

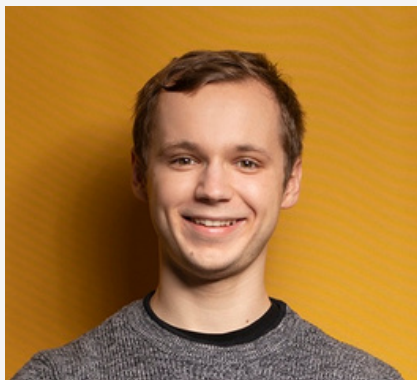

- Developed CNN-based signal prediction models in PyTorch for ATC systems

Working Student in Data Science **Oct 2022 - Mar 2023**
Lidl Germany Munich, Germany (remote)

- Developed and deployed time series models (LSTMs, CNNs) for demand forecasting across 11,900+ stores in 30+ countries

Data Science Intern **Apr 2022 - Sep 2022**
Spryfox Munich, Germany

- Developed ML models for health risk classification using Python & scikit-learn
- Extended an AWS data processing pipeline using Terraform and Python

SKILLS

AI & ML:

PyTorch, LLMs, RAG, LangChain, LangGraph, Vector DBs (Chroma, FAISS, Qdrant), Hugging Face, scikit-learn, Model Compression, LLM Fine-Tuning

DevOps & MLOps:

Docker, CI/CD (GitLab CI), MLflow, W&B, AWS, Terraform, Azure Databricks, SLURM

Software Engineering:

Python, FastAPI, React, PostgreSQL, SQL, Linux, Git, Jupyter

Data & Optimization:

Gurobi, PySpark, pandas, NumPy, Tableau

Leadership:

Scrum Master (PSM1), Agile, Stakeholder Communication, Jira, Confluence

LANGUAGES

English: Fluent (C2)

German: Fluent (C2)

Hungarian: Native

HOBBIES

I love sports, especially running - currently training for my first marathon. I also love to play violin, piano, and bass guitar, and I'm looking forward to joining a band someday.
